

SYNDI Conference 2019

Systems Neuroscience and Decision Making

7-8 August at Aarhus University

Confirmed speakers

Associate Professor Armin Lak, Oxford University

Associate Professor Junya Hirokawa, Doshisha University, Kyoto

Group Leader Adil Khan, Kings College, London

Postdoctoral Fellow Hyun Jae Pi, Brandeis University

Senior Researcher Oliver Hulme, Copenhagen University and Hvidovre Hospital

Postdoctoral Fellow Ebru Demir, Columbia University

Systems Neuroscience and Decision Making (SYNDI) is a small conference around the general topic of neural mechanisms of decision making, learning and other cognitive processes. One of the aims of the meeting is to bring together labs working on different levels: from molecules to cells and circuits as well as using variety of model organisms and approaches to answer fundamental questions in behavioral neuroscience. The meeting should strengthen connections, increase interaction and facilitate collaborations among neuroscience labs internationally as well as to give students an opportunity to present their work and get feedback from a variety of perspectives.
