

**Arctic Mining: Environmental issues,
mitigation and pollution control for
marine and coastal mining-
Workshop March 21, 22, 23, 2023**

Speaker: Jared Ottenhof, Qikiqtani Inuit Association*

Biography: *Jared is former professional hockey referee working up to the American Hockey League before studying Civil Engineering at University of Ottawa. He began working in Northern Canada with the Kitikmeot Inuit Association, living in Kugluktuk, representing the organization to impact assessments and other regulatory work, then moved to Nunavut Tunngavik Incorporated in Rankin Inlet as an Environmental Resource Management Advisor, and currently works as Director of Lands and Resource Management for the Qikiqtani Inuit Association in Iqaluit, NU.*

Abstract:

A short summary of the functioning purpose of the Qikiqtani Inuit Association, and other similar regional organizations, and the role they play proportionately to Industry. Currently the QIA is the recipient group of several Inuit Impact Benefit Agreements, and are able to provide feedback on projects (such as the Mary River Project) as they continue to be reviewed by governing bodies.
