AGENDA

1-Approval of/changes to the Agenda

2-Approval of/corrections to the minutes from the last meeting 2022

3-Report from the Editors

Editor-in-Chief Kongkanda Chayamarit will report on progress since last Editorial Board meeting, held at Singapore Botanical Garden, 2022

4-Report from the Production Editor

Director of BKF and productions manager will report on progress in production and plans for the period until next Editorial Board meeting

5-Family-list check

The distributed list of families and their authors will be checked, be used to evaluate the status of progress in all treatments.

6-Keeping retiring EB members active in the FoT project

We need all the accumulated expertise and cannot afford to lose the help of EB and other members of the FoT project who retire. Alternative plans for keeping them on as editors, consultants or personal members are important. We should make a round to hear about all EB members situation in relation to retirement, and if they retire before the end of the project – then how would they like to contribute.

7-FoT Vol. 1

We must discuss the progress of each chapter will be presented. The below list of Chapters for Volume 1 is the latest I have- It may need revision. And we need to discuss who writes what.

Chapter 1 – Introduction

Chapter 2 – History of Botanical Exploration in Thailand (John Parnell will do; everyone send what they have; Rachun works on list of names and translation of names; David Middleton)

Chapter 3 – History of Flora of Thailand books, journals and articles (Kongkanda +HB)

Chapter 4 – Bibliographies (Rachun + Tok)

Chapter 5 – Geology (as relevant to the Flora)(ask Peter van Welsen; much can be lifted out of the book on the Geology of Thailand))

Chapter 6 – Types of Vegetation (combine with ch 5 and expand to include biogeography and palaeobotany)(PvW)

Chapter 7 – List of Families in Flora of Thailand (Mark Newman; incl. list of genera and placement)

Chapter 8 – Key to Families (combine with 7 – Mark Newman)

Chapter 9 – Vegetation changes and conservation (Rachun Poma; David Middleton)

Chapter 10 – Uses and ethnobotany (HBalslev)

INDEX
