

## Origen and Origenism in the History of Western Thought

### 7<sup>th</sup> Circular letter, April 2013

The excitement about the upcoming *Colloquium Origenianum Undecimum* is growing in Aarhus.

We want to draw your attention to the following:

- 1) The conference program has been uploaded at the conference home-page <http://conferences.au.dk/origeniana/>. We are happy to be able to announce many exciting lectures, workshops and papers. Please let us know if you discover any mistakes. We can also reveal that there will be a concert in the cathedral and that the excursion will focus on the Vikings. More about that later on.
- 2) PhD-students can still apply to us for reduced fee. We have extended the deadline to Monday, April 15. Please, encourage your PhD-students or PhD-students who you know are interested in the conference theme, to attend the conference and the attached PhD-course – and to apply for reduced funding if they need that.

We are looking forward to see you in Aarhus in August.

On behalf of the organizers

Anders-Christian Jacobsen
